# Filter Valves

The Compact Super Filters are your tap's best friend. Not only can they regulate the flow they will also filter out all minute debris from your water system and protect the tap cartridge from damage it will also stop particles building up behind the aerator which can restrict flow. The filter is easily removed for cleaning.

# Overflow Bath Filler

A very discreet alternative to the normal bath taps, where the tap and overflow are combined into a single feature. To be used in conjunction with a bath valve or a shower diverter.

**Flow Rate (Litres per minute)**  
0.3 bar = 18 L/M  
0.5 bar = 25 L/M  
1.0 bar = 38 L/M
